

Comm One Inc Call Accounting LITE

Comm One® Call Accounting Lite is a basic entry-level Call Accounting Software package designed for small business. It includes basic inbound and outbound call tracking, but does not have all of the full features of our Jr and Pro versions. It can be used to track telephone call activity from all of the phones, modems, and fax machines that are on your phone system. You can generate call detail reports or a summary report. All of the other reports are only available on the Jr and Pro versions. Report Emailing is also only available on the Jr. and Pro Versions.
